

Satisfying All Your Wireless Scanning Needs Today and Tomorrow

BIZ 120 INC.
LASER FOCUSED

The Only Barcode Scanning Provider You Need

Wireless scanning technology is an efficient way to track and manage your supply chain, saving both time and money. But it can be frustrating for you when your supplier:

- Does not have the products you need
- Cannot deliver the products in a timely manner
- Cannot service your products
- Is not knowledgeable

BIZ 120 Inc. is your end to end source for buying, selling and repairing barcode scanning and wireless data collection technology. Many of the nation's largest companies are benefiting by working with us, and learning that we are the only provider they need.

Extensive Product Line

We can provide you with any product you need from any leading manufacturer. Our offerings range from barcode scanners and imagers to printers, accessories and consumables. We have access to all models, including hard to find and discontinued equipment that you initially bought a few years ago.

Timely Delivery

Because we have facilities throughout the United States and Canada, we can deliver products to you quickly.

Comprehensive Service

We offer a complete line of services for the equipment you buy from us, as well as the equipment you did not buy from us. Services range from buyback of used equipment to warranty extensions.

Knowledgeable Assistance

Our management has more than 15 years of industry experience. So when you come to us with questions or problems, we have the experience and expertise to assist you. And since we have a passion for this business, there is nothing we like more than talking with you and helping you.

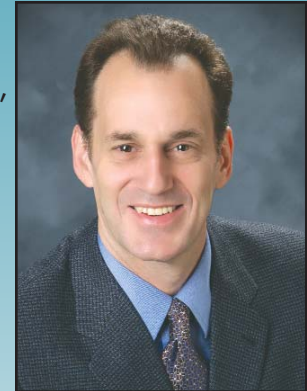

Service Locations

Atlanta

Minneapolis
Phoenix
Seattle
Toronto

Management

Jeff Grafstein, president of BIZ 120, Inc., has been helping retailers and other large corporations use technology to manage their inventory, supply chain and point of sale processes since the early 1990s.

Jeff formed BIZ 120 because he recognized that these businesses have a need for a reliable and knowledgeable source to meet all their barcode scanning and wireless data collection technology requirements.

Prior to founding BIZ 120, Jeff assisted regional and national retailers with Point of Sale solutions. In the process, he became an expert at understanding their needs across the supply chain and point of sale process...from project planning through hardware rollout and implementations.

Find out how Biz 120, Inc. can be your one-stop source for all your scanning needs today and tomorrow. Call us at 877-224-9120, or e-mail us at inquiries@biz120inc.com.
